Management & Palliative Care  
RGCIRC Rohini

## Invitation

You are cordially invited by the Faculty of the Department of Pain Management & Palliative Care, Rajiv Gandhi Cancer Institute & Research Centre, Niti Bagh & Rohini, to a 2 days comprehensive programme of training and academics in the management of cancer related pain and palliative care.

The theme for the programme is “Comprehensive Approach to Total Cancer Pain”.

“Pain is one of the most common and distressing symptoms described by cancer patients and it has psychological, social, emotional, and spiritual components that make up the ‘total pain’ experience”. Cancer pain at the End Of Life (EOL) has evolved from being one of the most neglected public health problems to being recognized as a worldwide health priority. The perception of pain in the palliative patient can be influenced by various factors and needs to be understood with a multi-dimensional approach.

We invite you to attend this event and enrich your knowledge by interacting with renown faculty in the field, these two days.

## About RGCIRC

Rajiv Gandhi Cancer Institute and Research Centre (RGCIRC) is a visionary project of Indraprastha Cancer Society, a not for profit public society managed by a group of socially responsible selfless philanthropists, aimed at providing best cancer care to those who need it. The vision of our founder members is “To prevent and treat cancer by providing affordable oncology care of international standards in India”.

The philosophy of RGCIRC is to constantly strive towards excellence in cancer care through combination of latest technology, competent personnel and human touch. RGCIRC offers comprehensive services from prevention to palliation at an affordable price.

We take care of all details to make sure that patients journey is as simple and stress free as possible.
